

# Call for Papers

Annual Meeting of the American Society of Plant Biology  
Southern Section

April 6-8, 2013  
Little Rock, Arkansas

---

April 6  
Opening Night Mixer

April 7  
Oral and Poster Presentations, Banquet and Student Awards

April 8  
**Kriton-Hatzios Symposium**  
Secondary Metabolism, Signaling and Plant Defense

---

## Symposium Speakers

### **Dr. Ken Korth**

Dept. of Plant Pathology, University of Arkansas

“Exploring the role of triterpene saponins in plant-pest defenses using a metabolomic approach”

### **Dr. Eric Schmelz**

USDA-ARS Center for Medical, Agricultural & Veterinary Entomology

“Newly discovered maize metabolites involved in signaling and defense against biotic attack”

### **Dr. Natalia Dudareva**

Dept. of Horticulture and Landscape Architecture, Purdue University

“Biosynthesis, regulation and metabolic engineering of plant secondary metabolites”

### **Dr. Linda Walling**

Center for Plant Cell Biology, University of California, Riverside

“Plant defense responses to phloem-feeding insects: the role of plant leucine aminopeptidases”

---

## Registration open through March 15, 2013.
